FWO DMP Template - Flemish Standard Data Management Plan

Project supervisors (from application round 2018 onwards) and fellows (from application round 2020 onwards) will, upon being awarded their project or fellowship, be invited to develop their answers to the data management related questions into a DMP. The FWO expects a **completed DMP no later than 6 months after the official start date** of the project or fellowship. The DMP should not be submitted to FWO but to the research co-ordination office of the host institute; FWO may request the DMP in a random check.

At the end of the project, the **final version of the DMP** has to be added to the final report of the project; this should be submitted to FWO by the supervisor-spokesperson through FWO's e-portal. This DMP may of course have been updated since its first version. The DMP is an element in the final evaluation of the project by the relevant expert panel. Both the DMP submitted within the first 6 months after the start date and the final DMP may use this template.

The DMP template used by the Research Foundation Flanders (FWO) corresponds with the Flemish Standard Data Management Plan. This Flemish Standard DMP was developed by the Flemish Research Data Network (FRDN) Task Force DMP which comprises representatives of all Flemish funders and research institutions. This is a standardized DMP template based on the previous FWO template that contains the core requirements for data management planning. To increase understanding and facilitate completion of the DMP, a standardized **glossary** of definitions and abbreviations is available via the following link.

	1. General Project Information
Name Grant Holder & ORCID	Nero Budur 0000-0002-0181-9988
Contributor name(s) (+ ORCID) & roles	
Project number ¹ & title	SINGULARITIES IN ALGEBRAIC GEOMETRY
Funder(s) GrantID ²	G0B3123N
Affiliation(s)	X KU Leuven
	□ Universiteit Antwerpen
	□ Universiteit Gent
	□ Universiteit Hasselt
	□ Vrije Universiteit Brussel
	□ Other:
	Provide ROR ³ identifier when possible:
Please provide a short project description	This project is about singularities on geometrical shapes given by algebraic equations, also called algebraic varieties. We will study the effect of the presence of singularities the geometry, the algebra, and the topology of algebraic varieties. On the geometric side, we will study contact loci of arcs associated with singularities. We aim to provide connections between contact loci and the minimal model program, to find an answer to the embedded Nash problem, and to address conjectures relating them with symplectic geometry via Floer homology and symplectic homology. On the algebraic side, we will study open questions on D-modules and Bernstein-Sato ideals. On the topological side, we will study local systems, their deformation theory with cohomological constraints, and will address the open question of which local systems can be constructed from geometry. A long-term goal is to provide new tools to address the monodromy conjecture.

¹ "Project number" refers to the institutional project number. This question is optional since not every institution has an internal project number different from the GrantID. Applicants can only provide one project number.

² Funder(s) GrantID refers to the number of the DMP at the funder(s), here one can specify multiple GrantIDs if multiple funding sources were used.

2. Research Data Summary

List and describe all datasets or research materials that you plan to generate/collect or reuse during your research project. For each dataset or data type (observational, experimental etc.), provide a short name & description (sufficient for yourself to know what data it is about), indicate whether the data are newly generated/collected or reused, digital or physical, also indicate the type of the data (the kind of content), its technical format (file extension), and an estimate of the upper limit of the volume of the data⁴.

				ONLY FOR DIGITAL DATA	ONLY FOR DIGITAL DATA	ONLY FOR DIGITAL DATA	ONLY FOR PHYSICAL DATA
Dataset	Description	New or Reused	Digital or	Digital Data Type	Digital Data	Digital Data	Physical Volume

 $^{^{\}rm 4}\,\text{Add}$ rows for each dataset you want to describe.

GUIDANCE:								
DATA CAN BE DIGITAL C	OR PHYSICAL (FOR EXAMPLE	BIOBANK, BIOLOGICAL	SAMPLES,	.). Dата түре: Dat	TA ARE OFTEN GROUPED BY TY	PE (OBSERVATIONAL, EXPERIN	MENTAL ETC.), FORMAT AND/OF	? COLLECTION/GENERATION
					ATIONS); EXPERIMENTAL (E.G. JLATION DATA (E.G. CLIMATE		Y, CHROMATOGRAMS, GENE SE	QUENCES);
	RMATS: TABULAR DATA (.PO N & COMPUTATIONAL SCRI		TEXT OR M	ARK-UP FILE XML, .	TAB, .CSV), TEXTUAL DATA (.I	RTF, .XML, .TXT), GEOSPATIAL	DATA (.DWG,. GML,), IMA	GE DATA, AUDIO DATA, VIDEO
DIGITAL DATA VOLUME:	PLEASE ESTIMATE THE UPI	PER LIMIT OF THE VOLU	ME OF THE	DATA PER DATASET (OR DATA TYPE.			
PHYSICAL VOLUME: PLEASE ESTIMATE THE PHYSICAL VOLUME OF THE RESEARCH MATERIALS (FOR EXAMPLE THE NUMBER OF RELEVANT BIOLOGICAL SAMPLES THAT NEED TO BE STORED AND PRESERVED DURING THE PROJECT AND/OR AFTER).								
If you reuse existing data, please specify the								
source, preferably by using a persistent								
dentifier (e.g. DOI, Handle, URL etc.) per								
dataset or data t	rype.							
Are there any et	hical issues concer	ning the	☐ Yes, ŀ	numan subject	t data			
creation and/or	use of the data		☐ Yes, a	animal data				
	s on humans or an	·	☐ Yes, o	dual use				
	e describe these is		⊠ No					
•	and refer to specific datasets or data types							
when appropriat	.e.							

⁵ These data are generated by combining multiple existing datasets.

Will you process personal data ⁶ ? If so, briefly	
describe the kind of personal data you will use.	
Please refer to specific datasets or data types	If yes:
when appropriate. If available, add the reference	
to your file in your host institution's privacy	- Short description of the kind of personal data that will be used:
register.	- Privacy Registry Reference:
Does your work have potential for commercial	□ Yes
valorization (e.g. tech transfer, for example spin-	⊠ No
offs, commercial exploitation,)?	If yes, please comment:
If so, please comment per dataset or data type	
where appropriate.	
Do existing 3rd party agreements restrict	☐ Yes
exploitation or dissemination of the data you	⊠ No
(re)use (e.g. Material/Data transfer agreements,	If yes, please explain:
research collaboration agreements)?	
If so, please explain to what data they relate and	
what restrictions are in place.	
Are there any other legal issues, such as	□ Yes
intellectual property rights and ownership, to be	⊠ No
managed related to the data you (re)use?	If yes, please explain:
If so, please explain to what data they relate and	
which restrictions will be asserted.	

⁶ See Glossary Flemish Standard Data Management Plan

	3. Documentation and Metadata
Clearly describe what approach will be followed to capture the accompanying information	No data will be generated/collected/reused.
necessary to keep data understandable and usable, for yourself and others, now and in the future (e.g. in terms of documentation levels and types required, procedures used, Electronic Lab Notebooks, README.txt files, Codebook.tsv etc. where this information is recorded).	The only output (including all relevant calculations) will be in the articles written. The articles in latex format will be stored permanently on arXiv and, when accepted for publication, in Lirias.
Will a metadata standard be used to make it	☐ Yes
easier to find and reuse the data?	⊠ No
	If yes, please specify (where appropriate per dataset or data type) which metadata standard will be used:
If so, please specify which metadata standard will be used. If not, please specify which	
metadata will be created to make the data	If no, please specify (where appropriate per dataset or data type) which metadata will be created:
easier to find and reuse.	
REPOSITORIES COULD ASK TO DELIVER METADATA IN A CERTAIN	No data will be generated/collected/reused
FORMAT, WITH SPECIFIED ONTOLOGIES AND VOCABULARIES, I.E.	
STANDARD LISTS WITH UNIQUE IDENTIFIERS.	

4. Data Storage & Back-up during the Research Project

Where will the data be stored?	No data will be generated/collected/reused. The only output (including all relevant calculations) will be in the articles written. The articles in latex format will be stored permanently on arXiv and, when accepted for publication, in Lirias
How will the data be backed up?	
What storage and backup procedures will be in place to prevent data loss? Describe the locations, storage media and procedures that will be used for storing and backing up digital and non-digital data during research. ⁷ Refer to institution-specific policies regarding backup procedures when appropriate.	arXiv, Lirias
Is there currently sufficient storage & backup capacity during the project? If yes, specify concisely. If no or insufficient storage or backup capacities are available, then explain how this will be taken care of.	 Yes No If yes, please specify concisely: No data will be generated/collected/reused. Articles in latex format will be save in arXiv and, when accepted, in Lirias. If no, please specify:

⁷ Source: Ghent University Generic DMP Evaluation Rubric: https://osf.io/2z5g3/

How will you ensure that the data are securely stored and not accessed or modified by unauthorized persons?	No data will be generated/collected/reused
CLEARLY DESCRIBE THE MEASURES (IN TERMS OF PHYSICAL SECURITY, NETWORK SECURITY, AND SECURITY OF COMPUTER SYSTEMS AND FILES) THAT WILL BE TAKEN TO ENSURE THAT STORED AND TRANSFERRED DATA ARE SAFE. 7	
What are the expected costs for data storage and backup during the research project? How will these costs be covered?	No data will be generated/collected/reused

	5. Data Preservation after the end of the Research Project
Which data will be retained for at least five years (or longer, in agreement with other retention policies that are applicable) after the end of the project? In case some data cannot be preserved, clearly state the reasons for this (e.g. legal or contractual restrictions, storage/budget issues, institutional policies).	No data will be generated/collected/reused. Articles will be uploaded in arXiv, Lirias.
Where will these data be archived (stored and curated for the long-term)?	No data will be generated/collected/reused. Articles will be uploaded in arXiv, Lirias

·	No data will be generated/collected/reused. Articles will be uploaded in arXiv, Lirias. No costs associated with this.

	6. Data Sharing and Reuse
Will the data (or part of the data) be made available for reuse after/during the project? Please explain per dataset or data type which data will be made available.	 ✓ Yes, in an Open Access repository ☐ Yes, in a restricted access repository (after approval, institutional access only,) ☐ No (closed access) ☒ Other, please specify:
NOTE THAT 'AVAILABLE' DOES NOT NECESSARILY MEAN THAT THE DATA SET BECOMES OPENLY AVAILABLE, CONDITIONS FOR ACCESS AND USE MAY APPLY. AVAILABILITY IN THIS QUESTION THUS ENTAILS BOTH OPEN & RESTRICTED ACCESS. FOR MORE INFORMATION: HTTPS://WIKI.SURFNET.NL/DISPLAY/STANDARDS/INFO-EU-REPO/#INFOEUREPO-AccessRights	No data will be generated/collected/reused. Articles will be uploaded in arXiv, Lirias.
If access is restricted, please specify who will be able to access the data and under what conditions.	
Are there any factors that restrict or prevent the sharing of (some of) the data (e.g. as defined in an agreement with a 3rd party, legal restrictions)? Please explain per dataset or data type where appropriate.	 Yes, privacy aspects Yes, intellectual property rights Yes, ethical aspects Yes, aspects of dual use Yes, other No If yes, please specify:
Where will the data be made available? If already known, please provide a repository per dataset or data type.	No data will be generated/collected/reused. Articles will be uploaded in arXiv, Lirias

When will the data be made available? This could be a specific date (DD/MM/YYYY) or an indication such as 'upon publication of research results'.	No data will be generated/collected/reused. Articles will be uploaded in arXiv, Lirias as soon as they are ready, and, respectively, accepted for publication.
Which data usage licenses are you going to provide? If none, please explain why. A DATA USAGE LICENSE INDICATES WHETHER THE DATA CAN BE	None. No data will be generated/collected/reused
REUSED OR NOT AND UNDER WHAT CONDITIONS. IF NO LICENCE IS GRANTED, THE DATA ARE IN A GREY ZONE AND CANNOT BE LEGALLY REUSED. DO NOTE THAT YOU MAY ONLY RELEASE DATA UNDER A LICENCE CHOSEN BY YOURSELF IF IT DOES NOT ALREADY FALL UNDER ANOTHER LICENCE THAT MIGHT PROHIBIT THAT.	
EXAMPLE ANSWER: E.G. "DATA FROM THE PROJECT THAT CAN BE SHARED WILL BE MADE AVAILABLE UNDER A CREATIVE COMMONS ATTRIBUTION LICENSE (CC-BY 4.0), SO THAT USERS HAVE TO GIVE CREDIT TO THE ORIGINAL DATA CREATORS." 8	
Do you intend to add a PID/DOI/accession number to your dataset(s)? If already available,	☐ Yes ☑ No
please provide it here.	If yes:
INDICATE WHETHER YOU INTEND TO ADD A PERSISTENT AND UNIQUE IDENTIFIER IN ORDER TO IDENTIFY AND RETRIEVE THE DATA.	

⁸ Source: Ghent University Generic DMP Evaluation Rubric: https://osf.io/2z5g3/

What are the expected costs for data sharing?	None. No data will be generated/collected/reused
How will these costs be covered?	

	7. Responsibilities
Who will manage data documentation and metadata during the research project?	PI
Who will manage data storage and backup during the research project?	PI
Who will manage data preservation and sharing?	PI
Who will update and implement this DMP?	PI
