FWO DMP Template - Flemish Standard Data Management Plan

Version KU Leuven

Project supervisors (from application round 2018 onwards) and fellows (from application round 2020 onwards) will, upon being awarded their project or fellowship, be invited to develop their answers to the data management related questions into a DMP. The FWO expects a **completed DMP no later than 6 months after the official start date** of the project or fellowship. The DMP should not be submitted to FWO but to the research co-ordination office of the host institute; FWO may request the DMP in a random check.

At the end of the project, the **final version of the DMP** has to be added to the final report of the project; this should be submitted to FWO by the supervisor-spokesperson through FWO's e-portal. This DMP may of course have been updated since its first version. The DMP is an element in the final evaluation of the project by the relevant expert panel. Both the DMP submitted within the first 6 months after the start date and the final DMP may use this template.

The DMP template used by the Research Foundation Flanders (FWO) corresponds with the Flemish Standard Data Management Plan. This Flemish Standard DMP was developed by the Flemish Research Data Network (FRDN) Task Force DMP which comprises representatives of all Flemish funders and research institutions. This is a standardized DMP template based on the previous FWO template that contains the core requirements for data management planning. To increase understanding and facilitate completion of the DMP, a standardized **glossary** of definitions and abbreviations is available via the following link.

1. General Project Information		
Name Grant Holder & ORCID	Sebastian Seemann & 0000-0002-5306-0264	
Contributor name(s) (+ ORCID) & roles	Fatemeh Mohammadi (0000-0001-5187-0995) & Advisor	
Project number ¹ & title	11PEP24N & The Amplituhedron: Algebra, Combinatorics, and Positive Geometry.	
Funder(s) GrantID ²		
Affiliation(s)	x KU Leuven	
	☐ Universiteit Antwerpen	
	☐ Universiteit Gent	
	☐ Universiteit Hasselt	
	□ Vrije Universiteit Brussel	
	□ Other:	
	ROR identifier KU Leuven: 05f950310	
Please provide a short project description	The central goal of the project is to improve the general understanding of the Amplituhedron, in particular relations to positive geometry. This includes canonical forms, boundaries etc. This will be achieved using methods from algebra, geometry, and combinatorics.	

¹ "Project number" refers to the institutional project number. This question is optional. Applicants can only provide one project number.

² Funder(s) GrantID refers to the number of the DMP at the funder(s), here one can specify multiple GrantIDs if multiple funding sources were used.

2. Research Data Summary	2.	Researc	h Data S	Summary
--------------------------	----	---------	----------	---------

List and describe all datasets or research materials that you plan to generate/collect or reuse during your research project. For each dataset or data type (observational, experimental etc.), provide a short name & description (sufficient for yourself to know what data it is about), indicate whether the data are newly generated/collected or reused, digital or physical, also indicate the type of the data (the kind of content), its technical format (file extension), and an estimate of the upper limit of the volume of the data ³.

				ONLY FOR DIGITAL DATA	ONLY FOR DIGITAL DATA	ONLY FOR DIGITAL DATA	ONLY FOR PHYSICAL DATA
Dataset	Description	New or Reused	Digital or	Digital Data Type	Digital Data	Digital Data	Physical Volume
Name			Physical		Format	Volume (MB, GB,	
						TB)	
Equations	Computational	⊠ Generate new	□ Digital	☐ Audiovisual	Small text file.	⊠ < 1 GB	
and	results obtained	data	☐ Physical	☐ Images		□ < 100 GB	
polynomials	from computer	☐ Reuse existing		☐ Sound		□ < 1 TB	
for the	algebra	data		☐ Numerical		□ < 5 TB	
amplituhedro	software					□ > 5 TB	
n and its cells.				☐ Model		\square NA	
				☐ Software			
				☐ Other:			

GUIDANCE:

The data description forms the basis of your entire DMP, so make sure it is detailed and complete. It includes digital and physical data and encompasses the whole spectrum ranging from raw data to processed and analysed data including analysis scripts and code. Physical data are all materials that need proper management because they are valuable, difficult to replace and/or ethical issues are associated. Materials that are not considered data in an RDM context include your own manuscripts, theses and presentations; documentation is an integral part of your datasets and should described under documentation/metadata.

RDM Guidance on data

³ Add rows for each dataset you want to describe.

If you reuse existing data, please specify the source, preferably by using a persistent identifier (e.g. DOI, Handle, URL etc.) per dataset or data type.	
Are there any ethical issues concerning the creation and/or use of the data (e.g. experiments on humans or animals, dual use)? If so, refer to specific datasets or data types when appropriate and provide the relevant ethical approval number.	 Yes, human subject data; provide SMEC or EC approval number: Yes, animal data; provide ECD reference number: Yes, dual use; provide approval number: No Additional information:
Will you process personal data ⁴ ? If so, please	\square Yes (provide PRET G-number or EC S-number below) \boxtimes No
refer to specific datasets or data types when	Additional information:
appropriate and provide the KU Leuven or UZ Leuven privacy register number (G or S number).	Additional information.
Does your work have potential for commercial	□ Yes
valorization (e.g. tech transfer, for example spin-	⊠ No
offs, commercial exploitation,)?	If yes, please comment:
If so, please comment per dataset or data type	
where appropriate.	
Do existing 3rd party agreements restrict	☐ Yes
exploitation or dissemination of the data you	⊠ No
(re)use (e.g. Material/Data transfer agreements,	If yes, please explain:
research collaboration agreements)?	
If so, please explain to what data they relate and	
what restrictions are in place	

⁴ See Glossary Flemish Standard Data Management Plan

Are there any other legal issues, such as	☐ Yes
intellectual property rights and ownership, to be	⊠ No
managed related to the data you (re)use?	If yes, please explain:
If so, please explain to what data they relate and	
which restrictions will be asserted.	

3. Documentation and Metadata The produced data will be very manageable due its small size. Clearly describe what approach will be followed to capture the accompanying information My supervisor will ensure the data and computationsal results will be saved on a KU Leuven necessary to keep data understandable and server. usable, for yourself and others, now and in the future (e.g. in terms of documentation levels and types required, procedures used, Electronic Lab Notebooks, README.txt files, Codebook.tsv etc. where this information is recorded). RDM guidance on documentation and metadata. ☐ Yes Will a metadata standard be used to make it easier to find and reuse the data? \boxtimes No If yes, please specify (where appropriate per dataset or data type) which metadata standard will be used: If so, please specify which metadata standard will be used. If not, please specify which metadata will be created to make the data If no, please specify (where appropriate per dataset or data type) which metadata will be created: easier to find and reuse. Due to the small amount of data, there will not be any problems regarding finding and reusing data. Due REPOSITORIES COULD ASK TO DELIVER METADATA IN A CERTAIN to this, no involved metadata standard will be applied. FORMAT. WITH SPECIFIED ONTOLOGIES AND VOCABULARIES. I.E. STANDARD LISTS WITH UNIQUE IDENTIFIERS.

	4. Data Storage & Back-up during the Research Project
Where will the data be stored?	☐ Shared network drive (J-drive)
	☐ Personal network drive (I-drive)
Consult the interactive KU Leuven storage guide to	☑ OneDrive (KU Leuven)
find the most suitable storage solution for your data.	☐ Sharepoint online
	\square Sharepoint on-premis
	☐ Large Volume Storage
	\square Digital Vault
	\square Other:
How will the data be backed up?	☐ Standard back-up provided by KU Leuven ICTS for my storage solution
	□ Personal back-ups I make (specify)
WHAT STORAGE AND BACKUP PROCEDURES WILL BE IN PLACE TO PREVENT DATA LOSS?	\square Other (specify)
FREVENT DATA LOSS:	Additionally to KU Leuven servers I will keep a copy on my private computer.
	Additionally to RO Ledven servers I will keep a copy on my private computer.
Is there currently sufficient storage & backup	⊠ Yes
capacity during the project? If yes, specify	□ No
concisely. If no or insufficient storage or backup	The size of the produced data will not exceed 1 gigabyte.
capacities are available, then explain how this	
will be taken care of.	If no, please specify:

How will you ensure that the data are securely stored and not accessed or modified by unauthorized persons?	My supervisor will ensure safe storage on the KU Leuven servers.
CLEARLY DESCRIBE THE MEASURES (IN TERMS OF PHYSICAL SECURITY, NETWORK SECURITY, AND SECURITY OF COMPUTER SYSTEMS AND FILES) THAT WILL BE TAKEN TO ENSURE THAT STORED AND TRANSFERRED DATA ARE SAFE. Guidance on security for research data	
What are the expected costs for data storage and backup during the research project? How will these costs be covered?	No cost.

5. Data Preservation after the end of the Research Project		
Which data will be retained for at least five years (or longer, in agreement with other retention policies that are applicable) after the end of the project? In case some data cannot be preserved, clearly state the reasons for this (e.g. legal or contractual restrictions, storage/budget issues, institutional policies). Guidance on data preservation	 ✓ All data will be preserved for 10 years according to KU Leuven RDM policy ☐ All data will be preserved for 25 years according to CTC recommendations for clinical trials with medicinal products for human use and for clinical experiments on humans ☐ Certain data cannot be kept for 10 years (explain) 	

Where will these data be archived (stored and	⊠ KU Leuven RDR
curated for the long-term)?	☐ Large Volume Storage (longterm for large volumes)
	☐ Shared network drive (J-drive)
<u>Dedicated data repositories</u> are often the best place to preserve your data. Data not suitable for preservation in a repository can be stored using a KU Leuven storage solution, consult the <u>interactive KU Leuven storage guide</u> .	□ Other (specifiy):
What are the expected costs for data preservation during the expected retention period? How will these costs be covered?	No extra cost.
	6. Data Sharing and Reuse
Will the data (or part of the data) be made	
available for reuse after/during the project?	☐ Yes, as embargoed data (temporary restriction)
Please explain per dataset or data type which	☐ Yes, as restricted data (upon approval, or institutional access only)
data will be made available.	☐ No (closed access)
	☐ Other, please specify:
NOTE THAT 'AVAILABLE' DOES NOT NECESSARILY MEAN THAT THE	
DATA SET BECOMES OPENLY AVAILABLE, CONDITIONS FOR ACCESS	
AND USE MAY APPLY. AVAILABILITY IN THIS OUESTION THUS ENTAILS	

BOTH OPEN & RESTRICTED ACCESS. FOR MORE INFORMATION: https://wiki.surfnet.nl/display/standards/info-eu-repo/#inf

able to access the data and under what

If access is restricted, please specify who will be

OEUREPO-ACCESSRIGHTS

conditions.

Are there any factors that restrict or prevent the sharing of (some of) the data (e.g. as defined in an agreement with a 3rd party, legal restrictions)? Please explain per dataset or data type where appropriate.	 Yes, privacy aspects Yes, intellectual property rights Yes, ethical aspects Yes, aspects of dual use Yes, other ⋈ No If yes, please specify:
Where will the data be made available?	⊠ KU Leuven RDR
If already known, please provide a repository per dataset or data type.	☐ Other data repository (specify)☐ Other (specify)
per dataset of data type.	Ctrief (Speerry)
When will the data be made available?	 ☑ Upon publication of research results ☐ Specific date (specify) ☐ Other (specify)
Which data usage licenses are you going to	☐ CC-BY 4.0 (data)
provide? If none, please explain why.	□ Data Transfer Agreement (restricted data)□ MIT licence (code)
A DATA USAGE LICENSE INDICATES WHETHER THE DATA CAN BE	☐ GNU GPL-3.0 (code)
REUSED OR NOT AND UNDER WHAT CONDITIONS. IF NO LICENCE IS	○ Other (specify)
REUSED. DO NOTE THAT YOU MAY ONLY RELEASE DATA UNDER A	
LICENCE CHOSEN BY YOURSELF IF IT DOES NOT ALREADY FALL UNDER ANOTHER LICENCE THAT MIGHT PROHIBIT THAT.	The data will consist of lists of polynomials.
Check the <u>RDR guidance on licences</u> for data and	
software sources code or consult the <u>License selector</u>	
tool to help you choose.	

Do you intend to add a PID/DOI/accession	☐ Yes, a PID will be added upon deposit in a data repository
number to your dataset(s)? If already available,	☐ My dataset already has a PID
please provide it here.	⊠ No
INDICATE WHETHER YOU INTEND TO ADD A PERSISTENT AND UNIQUE	
IDENTIFIER IN ORDER TO IDENTIFY AND RETRIEVE THE DATA.	
What are the expected costs for data sharing?	No costs.
How will these costs be covered?	

7. Responsibilities		
Who will manage data documentation and metadata during the research project?	Sebastian Seemann	
Who will manage data storage and backup	Fatemeh Mohammadi	
during the research project? Who will manage data preservation and	Sebastian Seemann	
sharing?		
Who will update and implement this DMP?	Sebastian Seemann
